

that he had not received a formal copy of the law nor had he received instructions as to how to proceed. It is understood that more than seventy two-gallon packages have been received in Rock Hill since Friday and the express agent there has received instructions to send the stuff back to the shipper collect. It is very likely that express agents at other points in the county will be authorized to do likewise.

Entertainment at Sutton's Spring.

One of the most enjoyable entertainments at Sutton's Spring school house in a long time, was held Friday night under the auspices of the Sutton's Spring school association. The exercises consisted of two short plays by school children and an exhibition by the Sharon Glee club. Those who took part in the play were: Misses Alma McClure, Mary Ferguson and Ferrie Stewart, and Messrs. Edna Robinson, Paul and Roy Thompson. The Sharon Glee club made its initial appearance and presented a repertoire of songs and dances which was highly pleasing. The Glee club, directed by Miss Lulla Arlowood, included the following young members: Sharon Glee club, Misses Alma McClure, Mary Ferguson and Ferrie Stewart, and Messrs. Edna Robinson, Paul and Roy Thompson. The Sharon Glee club made its initial appearance and presented a repertoire of songs and dances which was highly pleasing. The Glee club, directed by Miss Lulla Arlowood, included the following young members: Sharon Glee club, Misses Alma McClure, Mary Ferguson and Ferrie Stewart, and Messrs. Edna Robinson, Paul and Roy Thompson.

Meeting of Cotton Picker Company.

At a meeting of directors and stockholders of the South Carolina Cotton Picker company, in Yorkville yesterday morning, the directors were instructed to make every effort to raise the money to be used in building three machines for use in the cotton picking business in Texas and Oklahoma, as soon as the cotton season opens in that country. The board of directors was re-elected as follows: M. L. Smith, H. E. Neil, J. B. Neil, J. C. Wilborn, W. H. Lewis, C. D. Lide, W. C. Lide, J. C. Crook, C. E. Crook, C. D. Lide, formerly state mechanic in the C. & N. W. railway shops at Hickory, N. C., and Dr. John G. Black, who addressed the meeting on the principle of the cotton picker, the principle of which, he said, was mechanically perfect. It is stated that the machine, which weighs about 300 pounds, and is put on the market for \$300. According to Mr. Lide the machine picks 75 percent of the cotton in a field, and does not cut out last fall, and to his mind there is little doubt that it can be made to pick an even greater percentage. Up to date about \$10,000 has been spent on experimental construction.

Dr. John G. Black Dead.

Dr. John G. Black died at the home of his son Mr. Clarence J. Black at Blacksburg early Sunday morning following a long illness. Dr. Black was the son of William C. Black, one of the most eminent statesmen of South Carolina, who was 73 years of age and was born at Blacksburg. The war coming on he was preparing to enter college, he entered the army in active service up to the time of the surrender without having been discharged from the army. After the war he commenced the study of medicine and graduated from the Charleston Medical college in 1888 and at once began practicing in Blacksburg. In 1889 Dr. Black was sent to Columbia to represent the state in the legislature. In 1894 he was elected as a member of the credit and currency committee of the legislature. He was a member of the railroad (now the Southern) to locate its line through this county. Dr. Black gave up active practice in Blacksburg and has since lived with his children at Blacksburg. The funeral and interment was at Blacksburg yesterday morning. The funeral services were conducted by Rev. H. C. Moulton, pastor of the Methodist church of which the deceased was a member. The following children: Messrs. Roland and C. J. Black of Blacksburg; Dr. B. G. Black of Yorkville; Mrs. Lilla Nicholson, Greenwood and Lucille Babbington, Shelby.

MERE-MENTION

Otto H. Tittman, superintendent of the United States coast geodetic survey since 1900, retired from office Friday, after 48 years of government service. . . . Wm. Washington Cole, old time circus man, died in New York last Wednesday. . . . The will of the late Edward Wisner, which was probated in New Orleans last Friday, the sum of \$1,000 was left to each of the seventy-five parishes in Louisiana, the money to be used in purchasing land for the purpose of teaching children how to become practical farmers. . . . The armored cruiser Brooklyn, one of the fleet destroyed the Spanish squadron off Santiago in 1898, has taken her position in the President's Roads, off Boston, to preserve neutrality. . . . German steamers are intended for the war. . . . Delegate James of Mingo county, W. Va., has introduced a bill in the West Virginia house of representatives, providing a tax of \$5 upon all bachelors between the ages of 25 and 50. The money would be paid into the county road fund. . . . Lewis Johnson, a negro, was hanged in the county jail at Montgomery, Ala., last Friday for the murder of a white farmer more than a year ago. The negro protested his innocence to the last. . . . Secretary of the Treasury William G. McAdoo, was operated on last week for appendicitis. He is recuperating nicely. . . . Mrs. John D. Rockefeller, wife of America's wealthiest man, died at her home at Pocantico Hills, near Tarrytown, N. Y., Friday, after a long period of illness. Her husband and son were at Ormond, Fla., at the time of her death. . . . Two negroes, a woman and a man, were fatally wounded Friday, near Hendersonville, N. C. . . . Persons, after pouring kerosene on the home of Joe Perry, colored, set the place on fire and then poured a fusillade of bullets into the structure. . . . A congressional tour of the Hawaiian islands will be made this year under the auspices of the Kalanialualoa, the Hawaiian delegate in congress, who has completed the arrangements. The party will include fifty-five senators and representatives and their families, and will very likely leave San Francisco about the last of April. The expenses of the trip will be borne by the Hawaiian government. . . . Samuel Bowles, editor and publisher of the Springfield Republican, died Saturday. . . . The first minister, died Friday night of influenza. He was 70 years old. . . . Col. W. H. Crook, discharging duties of the White House, who was President Lincoln's bodyguard, and who has been intimately acquainted with every president, died at his home in Washington Saturday, of pneumonia. . . . The state of Florida has let the contract for the construction of a canal from Lake Cheesapeake to St. Lucie river in that state, a distance of 24 miles. The cost is estimated at \$2,000,000. . . . It is announced that the Kansas City stock yards will spend \$2,500,000 in improvements at once. . . . The diet (congress) of the duchy of Luxembourg, in Germany, has empowered the government to appropriate grain and provisions, and has prohibited the use of grain by distillers. . . . Lincoln Beach, the most famous of American aviators, was killed while making an exhibition flight at the Panama-Pacific exposition Sunday. At an altitude of about 3,000 feet, Beachy began a sharp descent. The wings of his monoplane collapsed and the machine plunged into San Francisco bay, the daring aviator was instantly drowned. The United States battleship Georgia, arrived at Vera Cruz, Mexico, Sunday. The U. S. battleship Delaware, and the gunboat Washington are already in the harbor of Vera Cruz. . . . Fire destroyed the plant of the Carolina Paper and Pulp Co., near Norfolk, Va., Saturday. The loss is estimated at \$100,000. . . . A Leipzig citizen has offered a reward of \$750 to the crew of a German submarine which sank a British troop transport.

FERTILIZERS FOR 1915.

Demonstration Agent Blair Offers Suggestions on Subject.

Editor of The Yorkville Enquirer.—There were many fertilizers used in South Carolina this year as compared with that used in 1914, and a good idea, this will be as the fertilizer bill had become an enormous one and especially when cotton dropped to from 6 to 8 cents per pound, as compared to 12 to 14 cents in 1913.

The South Carolina cotton crop of 1914 will not bring more than \$50,000,000 to \$55,000,000, and the fertilizer bill was something like \$25,000,000; but of course there was a great deal of this \$25,000,000 worth of fertilizers used on the cotton crop, but the greater part of the bill had to be paid for out of the cotton crop. Therefore one can see that it will take nearly one-half of the cotton crop to pay the fertilizer bill for 1914.

On account of the war in Germany the supply of kainit and potash is limited and the price is almost out of reach, especially when we have to pay for it 2 to 3 cents, or if we have ready with 7 or 8 cents cotton, and perhaps it is therefore very essential that every farmer study his land and ask the question, "What is the best fertilizer for one year or any at all on my land?" For one year we can do without potash at all on most of our cotton lands, but if we have ready with 7 or 8 cents cotton, and perhaps it is therefore very essential that every farmer study his land and ask the question, "What is the best fertilizer for one year or any at all on my land?"

On our stiff red clay and mulatto lands where we get a fairly good yield of 2 to 3 parts per cent acid and 1 part of cotton seed meal. This will analyze about 2 to 3 parts per cent acid and 1 part of cotton seed meal. This will analyze about 2 to 3 parts per cent acid and 1 part of cotton seed meal.

On low, sandy, or rusty or trenched lands of the Neel cotton picker, the principle of which, he said, was mechanically perfect. It is stated that the machine, which weighs about 300 pounds, and is put on the market for \$300. According to Mr. Lide the machine picks 75 percent of the cotton in a field, and does not cut out last fall, and to his mind there is little doubt that it can be made to pick an even greater percentage. Up to date about \$10,000 has been spent on experimental construction.

ECONOMY COUNTS.

THE PRACTICE OF ECONOMY IN BUSINESS IS THE FIRST PRINCIPLE OF SUCCESS. THERE IS NO BUSINESS THAT CAN SUCCEED IF LET RUN RIOT WITH EXPENSE.

ECONOMY means the cutting off of every unnecessary expense, and it means more than this. It means the waste of time. The successful business needs THOUGHT between the rush hours. The loss of the fleeting moments is an added expense to your business. Relieve these busy hours from the financial cares, by making a strong Banking Balance in THIS BANK.

FIRST NATIONAL BANK
